Dr. Elena Vance, Ph.D. - Senior Data Scientist

Email: elena.vance@alum.stanford.edu | Phone: (415) 555-0194 | Location: San Francisco, CA

Professional Summary

Senior Data Scientist with 6+ years of specialized experience architecting predictive machine learning pipelines, LLM solutions, and cloud-native MLOps architectures. Proven track record deploying models serving 5M+ daily requests on AWS with high reliability and low latency.

Education

Ph.D. in Computer Science (Machine Learning Specialization), Stanford University, 2018.
Master of Science in Statistics, Stanford University, 2015.

Work Experience

Staff Data Scientist - Apex Machine Intelligence (2021 - Present)
• Spearheaded predictive models using scikit-learn, XGBoost, and PyTorch for customer risk scoring.
• Architected cloud deployment pipelines utilizing AWS EC2, S3, and SageMaker with Docker and Kubernetes.
• Wrote high-performance PostgreSQL and Snowflake queries for real-time feature store ingestion.

Skills

Python, PyTorch, Scikit-learn, Pandas, NumPy, AWS, Docker, Kubernetes, SQL, PostgreSQL, Snowflake, MLOps.
